

DPM - Feature #21283

DPM should support the "Who is Accessing Device" feature supported by the old DPM

10/31/2018 12:42 PM - Beau Harrison

Status:	Closed	Start date:	10/31/2018

Target version:			
Description			
The ACNET interface has a device right-click menu, "Who is Accessing Device," that shows what processes are accessing a particular property of a device. This feature works with Java nodes but not for requests from other end-points.

- Related to Feature #15022: Add diagnostics added

#2 - 03/20/2019 02:30 PM - Richard Neswold

- Status changed from New to Closed

- Category set to Data Pool Manager

- Tracker changed from Bug to Feature

With the Java DPMs targeted as the "official DPMs", this issue is no longer important (since the Java DPMs provide this information.)
